

MATTIA VALLERIO

Mattia Vallerio is currently a tenure track assistant professor at Politecnico di Milano. He has 10+ years of experience in digital transformation and performance optimization of chemical production sites across Europe for major chemical companies (SABIC, DOW, BASF, Solvay & Syensqo). He has a strong experience in cross-functional project & team management, focusing on delivering value through operational excellence best practices, digitalization, advanced data analysis and advanced process control.

He holds a master degree in Chemical engineering from Politecnico di Milano and a Ph.D. in Engineering Science from KU Leuven.
